Title: "If you can't be with this client for some years, don't do it": Exploring the emotional and relational effects of turnover on youth in the child welfare system.
Author: **Ashley Curry**
Publication: Children and Youth Services Review. 2019.
Summary: Turnover among child welfare workers is a serious and well-documented problem, which is particularly troubling because it disrupts relationships between young people in care and their child welfare professionals. These relationships have the potential to provide support and enhance outcomes for youth who arguably already have a considerable history of relationship loss.
